

Hexa

—
Design Enzo Bertè

Anno di produzione 2019

Production year 2019

[It] — Il progetto trae ispirazione dalla memoria, recuperando forme semplici e iconiche che appartengono al passato. L'elemento centrale della collezione è il montante di sezione esagonale usato in edilizia che in questo contesto viene interpretato come uno snodo sul quale va ad attaccarsi perpendicolarmente il piede, anch'esso recupero stilistico che ricorda l'arredo anni '50.

Struttura

In trafilato metallico verniciato con sezione esagonale e piedi in lama d'acciaio.

Top spessore 20 mm e con bordo rastremato.

[En] — The project takes its inspiration from the concept of our memory, reimagining simple and iconic forms with echoes from the past. Central to the design is the upright hexagonal structure typically used in building construction that, in this particular context, is interpreted as a joint onto which the feet are attached perpendicularly. This style detail is reminiscent of 1950's furniture design. The base of the table is painted finished metallic wire drawn.

Structure

In painted wire drawn with hexagonal section and feet in steel blade.

Thickness top 20 mm and with tapered edge.

Top tondi / Round top

Top ovale / Oval top

Consolle

Finitura top in marmo/ Top marble finish

- 1 Bianco Carrara / White Carrara / Blanc Carrara / Blanco Carrara
- 2 Emperador Dark
- 3 Noir Antique
- 4 Pearl
