RIO COLLECTION

by Sebastian Herkner

Sebastian Herkner

***The Rio collection** is based on my fundamental design language working with honest materials and local craftsmen to achieve unique designs.*

For Punt I selected solid wood, structured glass, marble, textile and brass to create a collection of cabinets and lamps.

Rio is about the balance of materials and the balance of proportions.

The Rio cabinets have in common that they are all placed on solid marble cylinders. They provide stability and grandeur in contrast to the precise and fine crafted cabinets on top. Thin wooden frames and push to open doors with different inlays like structured wood are kind of bridge the two pedestals. The dialogue between all components creates a sophisticated character.
